Engineering Better Tomorrows

Premier Ductile and Cast Iron Products

The Company

Established as Kejriwal Iron & Steel Works in 1957, KISWOK has in the last 50 years established itself as one of the leading manufacturers of Ductile and Cast Iron products in India. KISWOK has honed and perfected its processes and tirelessly worked on quality aspects to become a formidable force in the industry and a global supplier of top quality products. The versatility and depth of product knowledge, coupled with innovation in design has been the driving force behind the stupendous success the company enjoys.

KISWOK Fast Fix

KISWOK Fast Fix is a product that has been developed for improved efficiency in laying of push-on joints and to overcome the cumbersome handling of fittings. KISWOK is the only company in the country that offers these innovative features.

Side Lugs – These offer a firm grip for pulling machines while laying and jointing. Lugs provide necessary support to crowbars for finer alignment.

Lifting Loops – Loops have been provided on fittings of 400mm and above at centre-of-gravity points. These loops enable smooth handling of the fittings while lifting from trucks or lowering into trenches.

Thrust Pads – Thrust pad make available necessary space for the concrete to grip and keep the fittings in position during line surge pressure.

KISWOK's Clientele

- + Karnataka Urban Water Supply & Drainage Board
- + Chennai Metro Water Supply & Sewerage Board
- + Larsen & Toubro Ltd
- + IVRCL Infrastructures & Projects Ltd
- + Degremont Ltd
- + Nagarjuna Construction Company Ltd
- + Subhash Projects & Marketing Ltd
- + Ramky Infrastructure Ltd

Quality

The British Standards Institute has certified KISWOK as ISO 9001:2000 compliant. We also have the Kitemark license (issued by BSI, UK) for manhole covers and frames. Kitemark is widely recognised as a symbol of quality for these products.

Product Range

KISWOK has built a large repertoire of numerous Cast & Ductile Iron products. A few of them are displayed below:

Bends

- Available in 90°, 45°, 22.50°, 11.25°
- Choice of double socket or double flange
- Relevant Standard IS 9523, ISO 2531, EN 545
- Sizes available from 80 to 1000 DN

Tees

- All Socket Tee
- All Flanged Tee
- Double Socket Tee with Flanged Branch
- Level Invert Tee
- Y Flanged Tee
- Relevant Standard IS 9523, ISO 2531, EN 545
- Sizes available from 80 to 1000 DN in various combinations

Reducers

- Double Flanged Reducer
- Double Socket Reducer
- Relevant Standard IS 9523, ISO 2531, EN 545
- Sizes available from 80 to 1000 DN in various combinations

Mj Fittings

- Entire range of Bend / Tee / Reducer & Flanged socket, Collar, Duckfoot bend Cross, Cap
- Available in Ductile Iron / Cast Iron
- Relevant Standard IS 13382 & IS 9523
- Sizes available from 80 to 1000 DN

Double Flange Pipe

- Double Flanged Pipe fully cast (integrally cast flanges)
- Available in Ductile Iron / Cast Iron
- Relevant Standard IS 9523 & IS 7181
- Sizes available from 80 to 1000 DN (max length of 2.75 metres per pc)

Valves

- Sluice Valve, Check Valve, Butterfly Valve & Air Valves
- Available in Cast Iron / Ductile Iron
- Relevant Standard IS 14846, IS 4038, IS 9338, IS 13095, IS 14845
- Sizes available from 80 to 1000 DN

Circular Cover with Sq. Base Frame (lockable)

- Customised marking available
- Locking System / Hinged type available
- Light duty, Medium duty, Heavy duty & Extra Heavy duty available
- Available in Ductile Iron / Cast Iron
- Relevant Standard EN 124, IS 1726

Single Seal Flat Top (lockable)

- Customised marking available
- Locking System available
- Light duty, Medium duty, Heavy duty & Extra Heavy duty available
- Available in Ductile Iron / Cast Iron
- Relevant Standard EN 124, IS 1726

Road Gully Grate Hinge Type

- Hinged Type available
- Locking System available
- Light duty, Medium duty, Heavy duty & Extra Heavy duty available
- Available in Ductile Iron / Cast Iron
- Relevant Standard EN 124
